MELISSA MSAYINWA

Bulawayo, Zimbabwe | +27 681297279 | melmoyo62@gmail.com| https://www.linkedin.com/in/melissa-msayinwa/ | https://github.com/Melmoyo | https://melissamsayinwa.netlify.app/

PROFESSIONAL SUMMARY

Frontend Developer with a foundation in React, TypeScript, and modern JavaScript (ES6+), focused on building clean, maintainable code and scalable component architecture. Experienced in crafting responsive interfaces with Tailwind CSS and a strong eye for structured, readable codebases. Actively building and shipping projects, bringing a detail-oriented approach to every layer of the frontend stack.

TECHNICAL PROFICIENCY

Languages: HTML, CSS, JavaScript,

Frameworks & Libraries: ReactJS, TypeScript, Tailwind CSS, Bootstrap

Tools & Platforms: Wireshark, Supabase, Figma, GitHub

Skills: Responsive Web Design, State Management

RELEVANT WORK EXPERIENCE

Ziti Group **Sept 2025 - Dec 2025**

AI Trainee, Remote

- Built an automated booking system for a healthcare platform focused on usability and workflow efficiency
- Integrated third-party APIs and forms to support real-time data handling
- Designed automation pipelines using n8n to connect services and reduce manual processes
- Worked with structured and dynamic content, reinforcing CMS-style development concepts

RemoDesk Technologies **May 2025 – Aug 2025**

Web Developer Intern, Remote

- Built responsive web pages using HTML, CSS, JavaScript, Tailwind CSS, and SVG graphics
- Developed interactive self-assessment quizzes with dynamic scoring and automated PDF result generation
- Implemented performance-conscious layouts and reusable UI components
- Collaborated with project leads to refine UI/UX based on feedback and iterative testing
- Translated design concepts into functional, production-ready web pages

Capital Software Solution **May - Aug 2018**

Trainee Developer, Centurion, South Africa

- Developed a banking system interface using HTML, SCSS, JavaScript, and Bootstrap
- Built reusable UI components including accordions and interactive elements for core banking workflows
- Extracted, organised, and timestamped data from text files to improve data accuracy
- Gained exposure to financial software systems including banking and payroll platforms

PROJECTS

Fitness Booking App | **Live Demo** | **GitHub** | **React, TypeScript, Tailwind CSS, Supabase**
Full-featured fitness platform with user authentication, a personal dashboard for booking and managing training sessions, and an admin portal with a complete bookings overview.

Wave Stat | **Live Demo** | **GitHub** | **React, TypeScript, Tailwind CSS, ReCharts**
Music analytics dashboard that surfaces K-pop listening statistics using dynamic pie and bar chart visualizations powered by Recharts.

Tech Talent Explorer | **Live Demo** | **GitHub** | **React, TypeScript, Tailwind CSS, GitHub Rest API**
Developer search tool that pulls GitHub profiles to display repositories, follower counts, and contribution activity.

Mercato Store App | **Live Demo** | **GitHub** | **React, TypeScript, Tailwind CSS, FakeStore API**
E-commerce application with product listing, search, and category filtering, built to simulate a real-world shopping experience.

EDUCATION

Richfield Graduate Institute of Technology **Graduated March 2025**

Bachelor of Science in Information Technology
